### Foreword of Publication

中华民族有着悠久的历史传统文化传统,在军事领域里的辉煌成就更是举世瞩目,曾在世界上产生了巨大的影响。中国古代在军事理论与兵器制造方面的成就,既是我国古老历史的重要组成部分,也是一笔弥足珍贵的文化遗产。因此,如何宣传我国在军事领域所取得的伟大成就,弘扬爱国主义和增强中华民族的自豪感,遂成为每一个历史研究者必须承担起来的责任。《图说中国古代兵器与兵书》便是在这方面的大胆的尝试。

The Chinese nation possesses a long history and its magnificent achievement in the military domain has exercised the huge influence in the world. The achievement made in ancient China in the fields of military theory and weapon manufacture is not only an integral part of Chinese civilization, but also a precious cultural heritage. Therefore, it is the responsibility of each historical researcher to publicize our country's great achievements obtained in the military domain, to develop the Chinese people's the patriotism and to strengthen their sense of pride. This book is a brave try attempt in this regard.

我国古代在兵器制造方面的成就,是我们的祖先智慧的结晶,也是我国古代科学技术水平高度发展的结果,其中所采用的许多先进生产技术,都比世界其他国家或民族领先很多年。我们中华民族又是一个思想开放且勤于学习的民族,对于其他民族所创造的文明成果,我们都能认真地对待,加以吸收并使之成为自己的东西,从而进一步地促进了我国兵器制造水平的提高。尤其是火药与罗盘在军事上的率先使用,对世界科学的贡献是不言而喻的,促进了世界军

事的飞速发展，在世界的火器发展史和军事技术发展史上写下了光辉的一页。我国古代的这些成就，得到了世界各国军事研究者的高度评价。至于我国古代以《孙子兵法》为代表的兵学著作，更是在世界各国产生了广泛的影响，不仅被翻译成许多国家的文字出版，而且还作为不少国家军事院校的教科书，成为军官的必读之书。

Weapon manufacture achievement made in ancient China is the crystallization of our ancestor's wisdom and the result of the development of science and technology. In terms of the advanced technology in weapon manufacture, China led other countries by many years. On the other hand, as an open-minded and industrious nation, China has absorbed the achievements created by other nations. To learn from other nations helps improve the technology of weapon manufacture in China. It is obvious that China's first application of gunpowder and compass for the military purposes was a great contribution to the world science. Her use of gunpowder and compass highlighted the history of firearms and the history of military technology. These achievements have been highly praised by military researchers of strong approval in many countries. Sun Zi Bingfa, ( Sun Zi's Militarism ), a representative of Chinese ancient militarism works, has produced a far-reaching influence in many countries. It has been not only translated into many languages, but also approved as the text books in many military colleges and universities, and a must reader for the military officers in many countries.

正因为如此,对我国古代兵器与兵书的研究历来受到学术界的重视,目前已取得了不少的成果,但是如何使这些研究成果为广大人民群众所了解与接受,成为教育群众,鼓舞爱国热情的工具,却是一个需要认真解决的问题。《图说中国古代兵器与兵书》一书,在全面、系统地介绍我国古代兵器和兵书知识的同时,还附有大量的图片,力争做到图文并茂,使广大读者能够更直观地了解这些知识,从而避免了单纯文字介绍的弊病。在文字方面,该书运用了比较生动的语言;在图片方面,尽量选用比较精美的图像资料;在印刷方面,也力图做到尽善尽美,以符合当今读图时代广大读者的要求,使本书在传播历史知识、鉴赏我国古代兵器制作高超水平的同时,并成为一种社会上所喜闻乐见的收藏品。

It is because of this that the study of ancient weapons and war-art books has been the focus of research in the academic circles. This study yielded fruitful results. Unfortunately, the researchers have not tried their best to make their findings accessible to the common readers. An Illustrated History of Weapons and War-Art Books in Ancient China is a good book for common readers. This book systematically introduces the weapons and military science in ancient China. With vivid words, fine pictures, and perfect printing, the book provides the readers with a direct-viewing knowledge. In the new era when the readers prefer to illustrated publications, this book may help spread historical knowledge, assist readers in appreciating the technology of weapon manufacture in ancient times, and become a valuable collection.
