Synopsis of China's Coastal Society and Emigration Overseas in Ming and Qing

Overseas emigration is an important aspect of China's expansion overseas. In Ming and Qing Dynasties, the emigration boom and the emergence of China's maritime social economy coincided with the historical course of the encounter between East and West. This exerted a two-fold influence on the historical development of China and the world.

Taking the viewpoint of China's maritime socio-economic history and placing overseas emigration in Ming and Qing in the context of China's maritime economic sphere, this book chiefly addresses itself to the emigrants' role in the economic and social interaction between China's coastal society and countries and regions beyond the seas. After an analysis of the basic tendency of the maritime socio-economic development and the formation and growth of overseas emigrant society, the book goes on to observe at three levels (economic, social and cultural) what significance the emigrants' overseas enterprise and their ultimate return to China had in cultural interaction and dissemination. It further points out that oversea emigrants are not only principal carriers taking China's traditional material and spiritual civilization to the world but also a key agents in bringing in outside civilization across the seas. Their important secondary role in China's maritime economy and in the socio-economic changes in China's coastal provinces is also given special focus.

To broaden the horizons of Chinese historical research to

embrace the seas and countries beyond in order to link up with world history has great academic significance in constructing a new framework for an extensive history of China. How is China, now on the threshold of the 21st century, to orientate herself to the seas and the world? This requires profound cognition of her experiences in the light of history. It is hoped that this book will provide some lessons from history for reference and inspiration.

A Brief Introduction of the Authors

Yang Guozhen, Director of Institute of Historical Research, Xiamen University, and Chief Editor of the Journal of *Chinese Social and Economic History*.
