Foreword

Traditional Chinese Medicine (TCM), a great treasure of world medical science, has the history of thousands of years. It has obtained remarkable attraction and reputation in the global medical society with its new image of "nature, security, and effectiveness". More and more people over the world accept the TCM. It is our unshirkable duty, as the descendents of the Chinese doctors, to make TCM in progress so as to benefit the health of human beings.

We compiled the series of "An English-Chinese Guide to Clinical Treatment of Common Diseases" in order to assist foreign students to have a better study of clinical knowledge of TCM. The series also meet the need of Chinese doctors when they spread TCM for foreign practitioners. The series are scientifically-organized reference books which could generally reflect the updated development of clinic in TCM.

The series were written and compiled by medical professionals and English experts from 7 TCM universities or colleges including Nanjing University of TCM,

Shanghai University of TCM, Guangzhou University of TCM, etc. . The faculty from Nanjing University of TCM compiled the Chinese part. Shanghai University of TCM with other colleges and universities were responsible for the translation. The proposal was drafted in 1998. After 5-year continuous adaptation, the whole series were finally completed in 2003.

The first series include ten books. They cover ten commonly-encountered diseases of viral hepatitis, primary glomerulonephritis, chronic gastritis, lung cancer, bronchial asthma, diabetes, primary hypertension, rheumatoid arthritis, cervical spondylosis, and cholelithiasis and their special treatment in traditional Chinese medicine. Each book consists of three parts. Part one discusses the major points in diagnosis and pathogenesis and pathology of the disease. Part two focuses on the typical therapy in TCM. It covers internal therapy, external therapy, acupuncture and moxibustion, Tuina (Chinese massage), physiotherapy, dietetic therapy, mental therapy, and regimen. Part three illustrates the academic experience of 3 - 4 celebrated doctors and the effective cases that they treated.

Wu Mianhua, Wang Yue, Huang Guicheng, Wang Xu and over ten professionals from Nanjing University of TCM have made great contribution. Ding Nianqing,
